Statement on the Presence of PFAS

At **Maxitalia Service S.r.l.,** we believe in complete transparency throughout the supply chain. We respond proactively to the needs of our customers and the market.
We issue this official statement regarding the presence of **PFAS** (per- and polyfluoroalkyl substances) in our products.

We ensure compliance through internal reviews of our production processes. We continuously obtain formal declarations from suppliers of raw materials, chemical treatments and components.

Our Compliance Commitments

- **No intentional use**: We do not use PFAS in our machining and manufacturing processes.
- **Compliance with REACH and POPs limits**: Our products comply with European Regulations (EC) No 1907/2006 and (EU) 2019/1021.
- **Control of commercially sourced components**: We verify seals and third-party components through official manufacturer certifications.
- **Technical transparency**: We update this statement in good faith based on the technical knowledge currently available.

Note: We do not routinely perform destructive chemical testing on every batch, except where specifically agreed or required by industry regulations.

Our team remains available to provide any further technical clarification.
